**Week 9 Term 4 2018**

## CREATIVITY

On Friday we said goodbye and good luck to Mr Fitzpatrick. The four weeks that he spent at Medlow were very busy and this gave him many varied opportunities for his Practical Teaching experience. Many thanks to all the staff who helped support Mr Fitzpatrick in his early career development. The students certainly benefited from his instruction and he was quick to develop positive relationships with all of them. It is great to build these partnerships with the University of Newcastle as they have a global reputation for their Education Faculty.

## STEM—(Science, Technology, Engineering and Maths

This week we take delivery of The Green Screen Filming Kit. This is an exciting initiative by the Department where STEM Share Kits are available on loan for a Term. We have secured the Green Screen for Term 1, 2019. This Friday we will have a STEM day with 4 groups rotating between;

The Green Screen Film crew  
EV 3 Lego Robotics  
Rube Goldberg Machines  
Electric Circuits

## NSW Public Schools Spectacular

On Saturday night on Channel 7 the schools Spectacular was televised. This is a fabulous collaboration of talent from around the state. The Nambucca Valley was represented by Shelana Boorer from Nambucca Heads High School, 7 students from Bowraville Central and students from Stuarts Point Primary School. Shelana performed in the jazz and contemporary dance sections, the Bowra students were in the choir and the students from Stuarts Point played the merimbas. When we visited Stuarts Point Public School for the Yarrahappini Festival we were treated to a performance by the Merimba Ensemble. A big cheer for not only our local talent but for all those students around the state!

Medlow – we should submit an audition video for 2019??
