School Focus

Discuss and Display Learning Goals

Learning Goals

Term 3 is really important for consolidating and extending learning. This is why our learning goals and learning intentions are integral to individual success.

For our Year 6's their preparation for High School continues with students attending transition programs and camps. In addition their class and homework tasks will complement each other.

Our 4 core learning dispositions build the foundations for success and resilience:

Communication
Collaboration
Critical Thinking
Creativity

All students will be given:

- ♦ responsibility for their learning
- ♦ opportunities to develop their leadership
- ♦ support to develop empathy and citizenship

Book Donation

Medlow Public School is very excited to have received some beautiful photographic books about all varieties of farming and farm life that have been donated by John Nicoletti so as 'to enable the next generation to connect with where their food and fibre comes from, highlight the importance of Australia's agricultural industry and inspire the farmers of tomorrow.'

Thank you to Emma Hogg, Bailey and Alexis' mum, for organising this wonderful donation to our school.
